

WOODCRAFT METAL FINISHES™

Sheffield Metals' WoodCraft Metal Finishes include four 24-gauge PVDF color options that match the classic, rustic look of wood while providing all the functional advantages of metal. These new finishes are paired with a corrosion-resistant ZAM® substrate and carry a coastal warranty. With a natural grain pattern printed onto the metal, WoodCraft works for both residential and commercial applications and can be very effective as siding or accents, especially when paired with a board and batten profile.

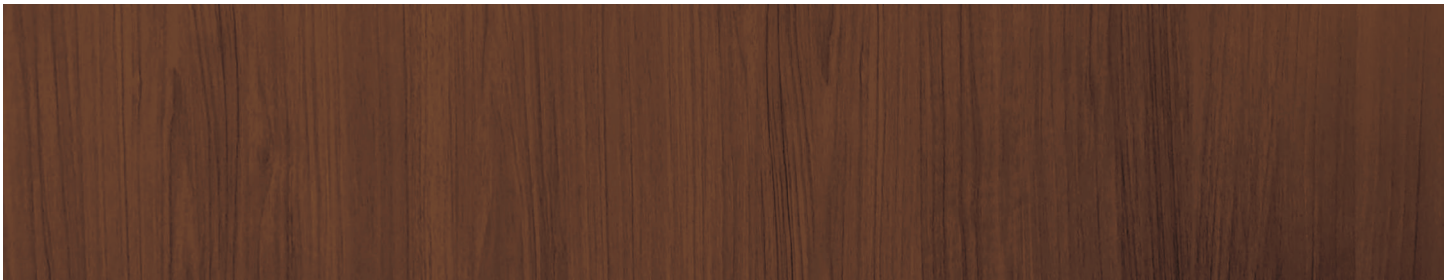

GOLDEN OAK

LIGHT WALNUT

ROSEWOOD

WARM GRAY

The colors shown are for representation purposes only and may not accurately reflect the actual product. All final decisions should be made based on physical metal samples.
