

45-Year Acrylic-Coated AZ55 Galvalume® Limited “Metal” Warranty

EXCLUSIVE WARRANTY

Sheffield Metals Cleveland, LLC, dba Sheffield Metals International (hereinafter referred to as “Sheffield”), exclusively warrants (collectively, the “Warranty”) to the customer identified herein (“Customer”) that the hot dipped aluminum-zinc alloy acrylic-coated Galvalume® sheet steel, with a coating weight of AZ55, sold for use as unpainted steel building, roofing and siding panels (collectively, “Panels” and individually a “Panel”), if erected within the Continental United States, WILL NOT as a result of corrosion: rupture, fail structurally, or perforate within a period of 45 years after shipment from Sheffield when exposed to normal atmospheric conditions, subject to the following provisions:

1. EXCLUDED ATMOSPHERIC CONDITIONS

This Warranty does not apply to sheet exposed at any time to corrosive, aggressive, harmful, or other abnormal atmospheric conditions, including but not limited to:

A: Coastline areas with a marine exposure within the following:

- Coastline with breaking surf – 1500 ft.
- Coastline with large bay – 800 ft.
- Coastline with marsh – 400 ft.

And all areas subjected to constant spraying of either salt or fresh water.

B. Areas subject to fallout of or exposure to corrosive chemicals, ash, fumes, cement dust, or animal waste.

C. Areas subject to water run-off from lead or copper flashings or to areas in metallic contact with lead or copper.

D. Conditions/circumstances where corrosive fumes or condensates are generated or released inside the building.

2. OTHER EXCLUDED SITUATIONS

A. Mechanical, chemical or other damage sustained during shipment, storage, forming, fabrication, during or after erection.

B. Failure to provide free drainage of water, including internal condensation, from overlaps on all other surfaces of the sheets or Panels.

C. Failure to remove debris from overlaps and all other surfaces of the sheets or Panels.

D. Damage caused to the metallic coating by improper roll forming, scouring or cleaning procedures.

E. Deterioration of the Panels caused by contact with green or wet lumber or wet storage stain caused by water damage or condensation.

F. The presence of damp insulation or other corrosive materials in contact with or close proximity to the Panel.

G. Deterioration of the Panels caused directly or indirectly by Panel contact with fasteners. Selection of suitable long-lasting fasteners to be used with Galvalume® roofing and siding Panels rests solely with the Customer.

H. Bends less than 2T for sheet thickness .030" and thinner and less than 4T for sheet thickness .031" and thicker.

I. Slopes of roof or sections of the roof flatter than 1/4:12.

J. Forming which incorporates severe reverse bending or which subjects coating to alternate compression and tension.

K. This Warranty applies only to the hot dipped aluminum-zinc alloy coating and not to any paint coating that may be applied to the Panels.

L. For highly visible applications, acrylic-coated Galvalume® has limitations. Since the acrylic passivation system is a thin, temporary, clear coating, differences in base metal surface could be noticeable. In most instances, the metal will darken with age and could exhibit non-uniform appearance.

This provision is a material term of this Warranty and its violation or breach by Customer or any of Customer's agents or representatives shall void and cancel this Warranty for all purposes. In the event this Warranty is transferred or assigned to a subsequent owner of the subject building such subsequent owner shall comply with all of the terms and conditions of this Warranty.

7. WAIVER OR MODIFICATIONS OF SHEFFIELD'S RIGHTS
